

**Al-Quds University - Faculty of Engineering  
Computer Engineering Department  
Information Systems Fundamentals 0702322**

**Instructor: Yacoub Sabatin, BEng, MSc**

**Course Projects Report 2 and Initial Presentation**

**Summer 2012**

**Submission Stage 2 (Report 2)**

- One per team/group.
- Contents of Report2:
  - Name of the project, team members, registration numbers, and emails.
  - Contents of Report1 (updated, i.e. any changes and issues raised after initial report), so an updated short summary on:
    - Tools/Technologies/Languages to be used.
    - System Impact on Organization.
    - System Impact on Management Behavior/Decisions
  - Data structures that will be used in the system (database structure/files structures, relations, how and what data is going to be stored).
  - Suggested views (UI's, UX, ..): User interfaces (prototypes), user experience, system flow, cases, and similar issues.
  - Explanation of System-Work (Functions/Controllers): What are the functions that the system is going to do, how will you arrange/introduce them?
  - Pseudo-code/Flowchart for main processes/functions.
- Deadline Sunday 16/6/2012
- Every team should submit a printed **hardcopy** of the report on lecture time (**EXACTLY**).
- Every team should delivers a short (5 minutes) speech about their system (order will be random).

**Good Luck all, and Happy Learning!  
Yacoub,**
